- He will take control of the Dept. of Justice so that there will be no way to control him.
- He will fire the generals/take control of the military.
- He will label his detractors as "enemies of the state". Execution has already been threatened.
- He will use his position of power to further enrich his family from foreign deals.
- He will prioritize his billionaire donors, give the poor enough reason to continue to support him while destroying the middle class.
- He will create "justification" to stay in power.
- America will become The United States of Trump.
